IP66 Rated 100V Line
Horn Speaker
40W C 2059

DESCRIPTION

The REDBACK C 2059 high performance horn speaker boasts a massive 128.5 dB SPL at 40 Watts providing high forceful and effective sound penetration for the noisiest of locations. The horn speaker holds an IP65 rating and is manufactured from heavy duty ABS. The voice coil is wound on an aluminium bobbin providing effective heat transfer away from the coil thereby improving efficiency and extending reliability. They can be utilised in installations such as factories, warehouses, construction sites, plant rooms. Power taps are selected via the inbuilt selector. Includes a sturdy powdercoated mounting bracket and stainless steel mounting bolts.

FEATURES

- Tough ABS construction
- Heavy duty powdercoated mounting bracket
- Clear speech reproduction for paging applications
- Selectable power taps
- High efficiency drivers and line transformers
- IP65 Weatherproof Construction
